Operations Analysis | KPI Reporting | Process Improvement | Power BI | Advanced Excel | SQL | Stakeholder Management

EXECUTIVE SUMMARY

Operations and performance analytics professional with 4 years of experience across mining operations, business analytics, project coordination, executive reporting, KPI monitoring, and process automation. Skilled in transforming operational data into structured management insights, building automated reporting workflows, tracking plan-vs-actual performance, and supporting cross-functional decision-making. Experienced in working with CFO-level stakeholders, site teams, technical departments, HR, finance, and management teams to improve visibility, reporting accuracy, operational control, and performance tracking.

CAREER HIGHLIGHTS

- Built automated operational reporting workflows using Microsoft Forms, Excel, Power BI, OneDrive, and SQL concepts to improve visibility across daily site activities, KPIs, and management reporting.
- Delivered executive dashboards and performance reports used by CFO, senior management, site managers, mining engineers, HR leadership, and cross-functional stakeholders.
- Supported plan-vs-actual analysis, production tracking, resource movement reporting, attendance reconciliation, KPI monitoring, and operational performance reviews across multiple functions.
- Improved reporting accuracy and decision support by standardising data structures, automating recurring reports, reconciling multiple data sources, and converting raw inputs into actionable insights.
- Combined operations, finance, HR, and technical reporting exposure to support process improvement, productivity tracking, workflow optimisation, and leadership-level reporting packs.

SELECTED PROJECTS

- Operations Performance Dashboard | Power BI, Excel Automation, KPI Monitoring, Daily Management Reporting | SGR
- Production & Site Reporting Automation | Microsoft Forms, OneDrive, Excel Models, Power BI Dashboards | Mining Operations
- Attendance Reconciliation & HR Analytics | JISR-BioTime Matching, Incomplete Attendance, Weekly VP HR Reports | SGR
- Executive Budget & Cost Reporting Support | Department Costs, Production Assumptions, Management Packs | CFO Office
- Business Performance Reporting | Sales KPIs, Incentive Tracking, Dashboard Automation, Team Reporting | NovaVente

AREAS OF EXPERTISE

Operations Analysis | Operational Reporting | KPI Monitoring | Process Improvement | Workflow Automation | Performance Analysis | Plan vs Actual Review | Root Cause Analysis | Executive Reporting | Dashboard Development | Data Reconciliation | Productivity Tracking | Resource Planning | Cross-Functional Coordination | Stakeholder Management | Power BI | Advanced Excel | SQL | Microsoft Forms

PROFESSIONAL EXPERIENCE

Operations Analyst / Mine Planning & Production Support Analyst | Saudi Gold Refinery Co. (SGR) | Riyadh, Saudi Arabia | Sep 2024 - Present

- Support operational performance reporting across mining, production, finance, and HR workstreams, converting site-level data into management dashboards, KPI reports, and executive summaries.
- Develop and maintain automated reporting workflows using Microsoft Forms, Excel, Power BI, and OneDrive to capture daily inputs, standardise reporting, and improve operational visibility.
- Track plan-vs-actual performance, production movement, drilling progress, grade/recovery assumptions, attendance exceptions, incomplete records, and operational KPIs for leadership review.
- Coordinate with site managers, mining engineers, HR teams, finance stakeholders, and senior management to validate data, resolve reporting gaps, and improve recurring operational processes.
- Support budgeting, feasibility, and management reporting by preparing structured data inputs, cost summaries, production assumptions, variance analysis, and presentation-ready reporting packs.

Business Analyst & Data Team Lead | NovaVente, Home of Technology | Mumbai, India | Apr 2023 - Aug 2024

- Led business reporting and analytics activities covering sales performance, operational KPIs, incentive calculations, team productivity, and management dashboards.
- Built Excel and Power BI reporting models to automate recurring reports, reduce manual work, improve reporting accuracy, and support business decision-making.
- Collaborated with business users and leadership to understand reporting needs, monitor performance trends, document process gaps, and standardise reporting outputs.

Assistant to Project Manager | Shree Balaji Exterior | Mumbai, India | Jun 2022 - Feb 2023

- Supported project coordination, progress tracking, documentation control, vendor follow-up, task monitoring, and stakeholder communication for project execution activities.
- Prepared status updates, maintained structured records, followed up on pending actions, and supported project reporting to improve execution visibility.

TECHNICAL TOOLKIT

Power BI | Microsoft Excel | SQL | Microsoft Forms | OneDrive | Pivot Tables | XLOOKUP | Data Cleaning | Data Reconciliation | Dashboard Design | KPI Reporting | Management Reporting Packs | Process Documentation

PROFESSIONAL DEVELOPMENT & STRENGTHS

- Practical exposure to operational excellence, performance reporting, process standardisation, data reconciliation, management dashboards, and cross-functional workflow improvement.
- Ongoing development in business analysis, operations analytics, mining economics, project reporting, KPI frameworks, Power BI modelling, and data-driven decision support.

EDUCATION

Bachelor of Commerce (B.Com) | Aligarh Muslim University | Expected 2026
