Mine Planning | Gold Operations | Production Scheduling | Feasibility Support | Power BI | Advanced Excel | SQL

EXECUTIVE SUMMARY

Mining operations and analytics professional with 4 years of experience, including 1.5+ years supporting open-pit gold mining, mine planning, production scheduling, grade and recovery analysis, feasibility studies, budgeting support, and executive reporting. Experienced in working across technical, operational, finance, and HR functions, with direct exposure to CFO-level reporting and senior management decision support. Recognised for building automated reporting systems, translating operational data into management insights, and supporting practical production plans aligned with ore movement, waste movement, processing constraints, and gold production targets.

CAREER HIGHLIGHTS

- Supported multi-pit open-pit gold production scheduling, bench-wise sequencing, ore/waste movement tracking, and monthly production planning aligned with processing capacity and gold targets.
- Built automated reporting workflows using Microsoft Forms, Excel, Power BI, and OneDrive, improving daily visibility across site production, drilling, KPIs, and management reporting.
- Contributed to feasibility and business-planning support through pit-wise summaries, production assumptions, grade/recovery analysis, cost inputs, and executive-level reporting packs.
- Delivered management dashboards and KPI reports used by CFO, mining engineers, site managers, and senior leadership for operational review and decision-making.
- Bridged mining operations, finance, and reporting functions by converting raw production data into structured insights for plan-vs-actual tracking and performance analysis.

SELECTED PROJECTS

- Multi-Pit Production Scheduling | Bench Sequencing, Ore/Waste Movement, Strip Ratio Review | Gold Operations | SGR
- HL/CIL Feed Planning Support | Grade Thresholds, Recovery Assumptions, Crusher Feed, Stockpile Control | Gold Operations | SGR
- Feasibility Study Support | Production Assumptions, Pit-Wise Summaries, NPV/IRR Inputs, Sensitivity Analysis | SGR
- Mining Production Dashboard | Microsoft Forms, Power BI, Excel Automation, Daily Site Reporting | CFO & Mining Leadership
- Attendance & HR Analytics Automation | JISR-BioTime Reconciliation, Incomplete Attendance, VP HR Weekly Reporting | SGR

AREAS OF EXPERTISE

Mine Planning | Production Scheduling | Open-Pit Gold Operations | Bench Sequencing | Grade & Recovery Analysis | HL/CIL Feed Planning | Plan vs Actual Review | Feasibility Study Support | Production Forecasting | Mining KPIs | Budget Reporting | Dashboard Automation | Power BI | Advanced Excel | SQL | Microsoft Forms | Stakeholder Management

PROFESSIONAL EXPERIENCE

Mine Planning & Production Support Analyst | Saudi Gold Refinery Co. (SGR) | Riyadh, Saudi Arabia | Sep 2024 - Present

- Support mine planning and production scheduling for open-pit gold operations, including monthly production plans, pit-wise summaries, bench sequencing, and ore/waste movement analysis.
- Assist with HL and CIL feed planning by reviewing grade ranges, recovery assumptions, processing capacity, crusher feed requirements, ROM/stockpile movements, and gold production targets.
- Prepare plan-vs-actual performance reports covering production, drilling, grade, recovery, strip ratio, movement, and operational KPIs for technical and executive review.
- Support feasibility and business-planning workstreams through structured production data, cost and revenue inputs, sensitivity analysis support, NPV/IRR modelling inputs, and management report formatting.
- Develop and maintain automated reporting systems using Microsoft Forms, Excel, Power BI, and OneDrive, enabling daily site reporting and improved management visibility.

Business Analyst & Data Team Lead | NovaVente, Home of Technology | Mumbai, India | Apr 2023 - Aug 2024

- Led reporting and analytics activities across business operations, sales performance, KPI tracking, incentive reporting, and management dashboards.
- Built Excel and Power BI reporting models to improve data accuracy, automate recurring reports, and support leadership decision-making.
- Coordinated with cross-functional teams to standardise reporting processes, monitor performance trends, and improve operational visibility.

Assistant to Project Manager | Shree Balaji Exterior | Mumbai, India | Jun 2022 - Feb 2023

- Supported project coordination, progress tracking, documentation control, vendor follow-up, and reporting for project management activities.
- Maintained structured records and assisted with status updates, task follow-ups, and stakeholder communication to support timely execution.

TECHNICAL TOOLKIT

Power BI | Microsoft Excel | SQL | Microsoft Forms | OneDrive | Pivot Tables | XLOOKUP | Data Modelling | Dashboard Design | Operational KPI Reporting | Management Reporting Packs

PROFESSIONAL DEVELOPMENT

- Mining economics, feasibility study concepts, NPV/IRR, sensitivity analysis, production assumptions, and gold production forecasting - ongoing self-directed development.
- Practical exposure to open-pit gold mine planning workflows, HL/CIL processing assumptions, grade/recovery analysis, and mine production reporting.

EDUCATION

Bachelor of Commerce (B. Com) | Aligarh Muslim University | Completed 2026
